

RECOVERY & REGENERATIVE

Product	Size	Description	Price	Qty
BPC-157	10mg	Body Protection Compound-157. Tissue repair, gut lining integrity, and accelerated recovery.	\$49.00	
TB-500	10mg	Thymosin Beta-4 fragment. Tissue regeneration, angiogenesis, and cellular repair.	\$60.00	
BPC-157 / TB-500 "Wolverine"	10mg / 10mg	Dual-peptide recovery stack. Popular in orthopedic and sports recovery protocols.	\$75.00	
CJC-1295 w/ DAC	5mg	Modified GHRH analog with Drug Affinity Complex. Extended half-life for anti-aging and body composition.	\$62.00	
CJC-1295 w/o DAC	5mg	Short-acting GHRH analog (Mod GRF 1-29). Commonly paired with Ipamorelin.	\$45.00	
CJC-1295 / Ipamorelin Blend	5mg / 5mg	Most widely used GH secretagogue stack. Amplifies natural GH release with high receptor selectivity.	\$50.00	
Ipamorelin	10mg	Selective GH secretagogue. Stimulates GH release with minimal effect on cortisol or prolactin.	\$45.00	

METABOLIC / GLP FAMILY

Product	Size	Description	Price	Qty
GLP-2	10mg	Glucagon-Like Peptide-2. Intestinal repair, gut barrier function, and mucosal integrity.	\$50.00	
GLP-2	30mg	Higher-dose GLP-2. Better value per mg for ongoing gut health and intestinal repair.	\$62.00	
GLP-2	60mg	Volume SKU. Cost efficiency for sustained GLP-2 protocols.	\$100.00	
GLP-2	100mg	High-volume GLP-2. Optimal value per mg for long-term intestinal health protocols.	\$150.00	
GLP-3 / Retatrutide	10mg	Triple-receptor agonist (GLP-1, GIP, glucagon). Weight management and metabolic syndrome.	\$65.00	
GLP-3 / Retatrutide	30mg	Higher-dose Retatrutide for established metabolic protocols.	\$100.00	
SLU-PP-332	500mcg	ERR alpha/delta agonist. Exercise mimetic; endurance and metabolic adaptation.	\$45.00	
SLU-PP-332	1000mcg	Higher-dose SLU-PP-332. Mitochondrial and metabolic pathway activation.	\$52.00	

ANTI-AGING & LONGEVITY

Product	Size	Description	Price	Qty
Epithalon	50mg	Synthetic tetrapeptide. Telomerase activation, circadian regulation, neuroendocrine modulation.	\$75.00	
GHK-Cu	50mg	Copper-bound tripeptide. Collagen synthesis, wound healing, hair follicle stimulation.	\$20.00	
GHK-Cu	100mg	Higher-volume GHK-Cu. Better value for skin, hair, and wound healing applications.	\$28.00	

GHK-Cu / BPC-157 / TB-500 "GLOW"	50mg / 10mg / 10mg	Premium triple-blend. Comprehensive regenerative, aesthetic, and anti-aging applications.	\$112.00	
GHK-Cu / TB-500 / BPC-157 / KPV "KLOW"	50mg/10mg /10mg/10mg	Four-peptide stack. Broad-spectrum tissue repair and longevity protocol.	\$112.00	
Tesamorelin	10mg	Stabilized GHRH analog. Visceral fat reduction and GH pulse optimization.	\$75.00	
PT-141	10mg	Bremelanotide. Melanocortin receptor agonist for sexual health and libido.	\$38.00	
Melanotan 2 (MT2)	10mg	Synthetic melanocortin analog. Skin pigmentation, libido, and appetite modulation.	\$30.00	
Selank	10mg	Synthetic heptapeptide anxiolytic. Stress reduction, cognitive enhancement, immune modulation.	\$44.00	
Semax	10mg	ACTH-derived neuropeptide. Neuroprotection, cognitive performance, stress resilience.	\$38.00	
5-Amino-1MQ	50mg	NNMT inhibitor. Mitochondrial function, metabolic activation, fat reduction.	\$55.00	

NAD+

Product	Size	Description	Price	Qty
NAD+	100mg	Nicotinamide Adenine Dinucleotide. Cellular energy, DNA repair, and sirtuin activation.	\$30.00	
NAD+	500mg	Standard clinical-dose NAD+. Anti-aging, metabolic health, and neurological support.	\$45.00	
NAD+	1000mg	High-dose NAD+ for intensive longevity protocols. Sustained cellular energy support.	\$50.00	

RECONSTITUTION SUPPLIES

Product	Size	Description	Price	Qty
BAC Water	3ml	Bacteriostatic water for peptide reconstitution. Sterile and multi-dose compatible.	\$8.00	
BAC Water	10ml	Larger-format BAC Water. Better value for high-volume reconstitution needs.	\$14.00
